

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

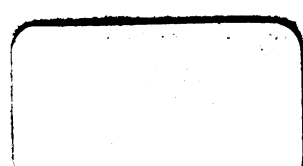

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## PREFACE

---

This Guide has been compiled to facilitate the work of the librarian in his selection, purchase and care of periodicals; to assist the bookseller and the subscription agent by placing before them in convenient form the current periodical literature of the United States and Canada; to guide the private citizen in his choice of magazines for his home, his office, or his club.

The business man wants to know what magazines cover the field in which he is especially interested and the prices at which they are published; the subscription agent is interested to know the names of periodicals and serials, publishers' addresses, and subscription prices; the librarian must have the whole information concerning periodical literature classified, indexed, and conveniently accessible. Every librarian and subscription agent must be aware of the meagre information that we possess concerning our periodical literature. The English have "Willing's Press Guide", the French their "Annuaire des Journaux", the German their "Journal-Katalog", but there is nothing published in this country which corresponds exactly to these foreign lists. Our newspaper annuals fill the place for which they are designed, and give information which up to the present time can not be found elsewhere; but they are not sufficiently comprehensive and their contents are not conveniently arranged for ready reference.

The material in this Guide is arranged first alphabetically by titles and secondly by subject matter. In the alphabetical arrangement the titles of periodicals and serials and the names of societies are arranged in one list by the first word of the title, not an article, or the name of the society. Bulletins, journals, proceedings, reports, and transactions of societies are entered under the names of the societies. The aim has been to give the name of the publication, date of first issue, frequency of publication, the publisher's name and address and the subscription price. In the second part of the Guide, the material so far as possible has been arranged by subjects, but not having been able to examine all the periodicals personally the compiler craves indulgence for errors and omissions.

It is hoped to make the Guide an annual publication, corrected each year, and kept up to date. No one better understands the incompleteness of the present edition than the compiler himself and he consents to its publication in the hope of being able to make future editions more nearly complete. The aim has been to include all periodicals and serials published in the United States and Canada with the exception of local and political news-

papers, administrative reports, state and government publications. Information regarding these publications is accessible in other forms.

In the preparation of this work the compiler has drawn on various sources for his material. The publishers of the periodicals have responded with promptness and courtesy to requests for information, and frequent use has been made of N. W. Ayer and Son's American Newspaper Annual, of the Catalogue of Copyright Entries, Part 2: Periodicals; of the List of Serials in Public Libraries of Chicago and Evanston, and of the second edition of the supplement to the list issued by the John Crerar Library.

Any suggestions, corrections or information intended to make the Guide more nearly accurate and complete, and therefore more serviceable, will be gratefully received.

The compiler respectfully suggests that notice of any change in title, frequency of publication, subscription price, publisher, and publisher's address, of the publications listed on the following pages, and new publications or notices of them, may be sent to him for inclusion in the next edition.

The compiler is especially indebted to Mr. Theodore W. Koch, Librarian, University of Michigan, and to Mr. Byron A. Finney, assistant, for their valuable suggestions and advice, and to the latter for assistance in reading and revising the proof.

This work was nearly completed when the compiler was appointed Librarian of the University of Missouri; the work, however, was practically all done at the University of Michigan.

HENRY ORMAL SEVERANCE

General Library  
University of Missouri  
Columbia, Mo.  
January, 1907.

## PREFACE TO THE SECOND EDITION

---

In preparing the second edition of the Guide, the compiler has been assisted by Charles Harper Walsh of the Copyright office, Library of Congress. Under his supervision the Guide has been checked by the card index of current periodicals received by the Library of Congress, and by the "Hand-book of Learned Societies" to be issued soon by the Carnegie Institution. From the former list 1146 new titles were added; from the latter 210; from other sources 910, making the total number of additions to the present edition of the Guide 2266 titles. The Guide now contains more than 10,000 titles.

Thanks are due to Mr. C. B. Guittard of the Periodical Division, Library of Congress, for his assistance in preparing this edition of the Guide and to the Carnegie Institution for the use of the advance sheets of their forth-coming "Hand-book of Learned Societies."

It has been found impractical to issue an edition of the Guide every year. It is hoped to issue a supplement in 1909 giving new titles and noting those which have either suspended publication or have changed their names. The next edition of the Guide, therefore, may be expected in the fall of 1910.

General Library                      HENRY ORMAL SEVERANCE.  
University of Missouri, April, 1908.

**PART I**  
**ALPHABETICAL LIST**

# GUIDE TO PERIODICALS

## Part I Alphabetical List

### ABBREVIATIONS

a = annual.	s-m = semi-monthly.
b-m = bi-monthly.	s-w = semi-weekly.
b-w = bi-weekly.	w = weekly.
d = daily.	f = fortnightly.
6 d = daily, six days in the week.	irreg. = irregular.
m = monthly.	

The date refers to the time the periodical or serial was founded. The price is the publisher's subscription price.

# A Pen That's Never Hard Up For Ink

See the  
Crescent-  
Filler

Some fountain pens are like some people—look good to the eye, but when you need them they're empty. A cheap lead pencil is better than a fountain pen that runs dry when the filler is left behind.

Use the pen that needs no separate filler—the pen that's never hard up for ink—the pen that you can load at any ink well by a mere touch of the thumb—Conklin's Self-Filling Fountain Pen. Just dip it in—press the Crescent-Filler and it sucks in the ink like a camel slaking its thirst—not too much—not too little. Can't spill. Cleaned in the same way by dipping in water.

It is all in the Crescent-Filler, the simple device that has made the Conklin Pen such a wonderful success. No other fountain pen can be made with the Crescent-Filler. No Conklin is made without it. It is the means by which any one may immediately recognize the most perfect fountain pen made—

## CONKLIN'S Self-Filling Fountain Pen

Besides the self-filling, self-cleaning advantages over all other fountain pens, is the perfect feed—the smooth glide of the Conklin. Whether you write fast or slow, heavy or light, back hand or forward, the flow of ink is perfect. It writes as easily as it is filled. You can form no idea how smoothly a fountain pen can write until you have written with a Conklin. Just enough ink on the end of your pen every writing minute.

It doesn't scratch when you want it to write, nor shed ink in your pocket. Neither does it sweat. Can't clog, choke or flood. No balks, skips or stops. Needs no coaxing. Writes until ink is exhausted. Then you can instantly fill it again by dipping it in the nearest ink well.

Fill it anywhere—on the train, boat, at the hotel desk—wherever there's ink. No bothersome dropper—no inky hands—just **comfort**.

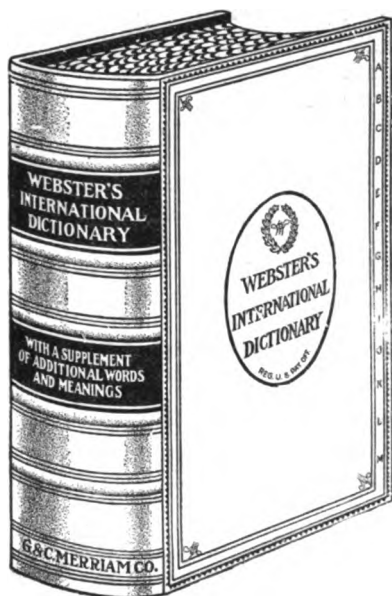

Ask your dealer to show you the Conklin. It's different from all other fountain pens—and better. If it hasn't the Crescent-Filler it isn't a Conklin. Leading dealers everywhere sell the Conklin. If yours does not, order direct. Prices, \$3.00, \$4.00, \$5.00 to \$15.00. *Send at once for our handsome new catalogue.*

**THE CONKLIN PEN CO., 312 Manhattan Bldg., Toledo, O.**

A TREASURE-HOUSE OF KNOWLEDGE

# WEBSTER'S INTERNATIONAL DICTIONARY

Besides an accurate, practical, and scholarly vocabulary of English, enlarged with **25,000 New Words**, the International contains a

# Library Orders for Books and Magazines

Every year sees our Library Business increase tremendously. The reason is obvious. This store has been established for over half a century and our reputation and standing with publishers all over the United States is of the best. Our immense stock (two stores, representing together the largest book stock in Michigan, without exception) enables us not only to fill orders on short notice but at the *lowest existing prices*.

We have among our customers for both books and magazines all the prominent schools and colleges of Michigan and scores of public libraries all over the United States. The business of these libraries we secure by direct competition with other *book concerns and subscription agencies*.

### **Let Us Prepare an Estimate on Your Next List.**

Our experience in handling Library business insures prompt execution of all orders.
